## Plan Review Report Introduction

***"How is your employer-sponsored trust helping employees pay for eligible medical expenses?"***

A Voluntary Employees' Beneficiary Association (VEBA) allows an employer to contribute money to a tax-exempt trust on behalf of their employees. The funds in this account can be used to help pay for eligible medical expenses through a health reimbursement arrangement (HRA). The HRA gives employees more control over health care purchase decisions by:

- Helping pay for eligible expenses
- Giving employees online access to information and tools to monitor their account and make more informed decisions
- Providing employees the convenience of debit cards for purchases, which means no extra paperwork
- Allowing employees to receive reimbursements tax-free

Plan Sponsors and VEBA plan committees spend a tremendous amount of time devoted to employees' day-to-day matters. This includes large plan level tasks such as compliance testing, tax form preparation and plan audit support as well as routine daily activity such as contributions, reimbursements and of course, helping participants with daily questions concerning the Plan.

Recognizing that the ultimate goal of your VEBA/HRA Plan is to allow for tax-free accumulation of assets to be used by the participant to pay for eligible medical expenses now and into retirement, it is important for Plan Sponsors and VEBA plan committees to periodically review the day-to-day activity within their Plan. For example:

- What are the most common participant questions or concerns?
- What are average participant balances within the Plan?
- How many claims are being filed and what filing methods are being utilized?
- If multiple plans are offered, how do each of the Plan' activities compare?
- Are participants taking advantage of the debit card submission availability?

This Plan Review Report will present an itemized breakdown of participant inquiries received through our call center, a breakdown of claims statistics by source and plan type, a summary of debit card substantiation and auto adjudication rates, and the average participant balances by age and service within the Plan.

As of 12/31/2020

**Your Plan's YTD Rate of Return as of 12/31/2020                      11.98 %**

As fiduciaries oversee your VEBA plan, one factor they monitor is the plan-wide rate of return -- seeking to understand how the investment decisions of participants are driving outcomes. This report (updated quarterly) shows the average rate of return for your entire VEBA plan, along with the breakdown of the rate of return for one year, three years and five years.. For a more detailed report showing the YTD rate of return for each participant, please see the YTD Rate of Return Report - Participant Level under the Demographics section of the Resource Center on the plan sponsor website.

*Please see the YTD Rate of Return Report - Participant Level in the Resource Center for more detailed break down*
